YOUR TRAVEL-DAY SHORTCUT

Shop. Confirm. Get refunded.

For purchases from 1 November 2026

1. **SHOP**
   Pay the full tax-inclusive price. Register the purchase and refund method at the shop.

2. **KEEP**
   Keep every registered item for export, together with its purchaser.

3. **CONFIRM**
   At your final Japan departure airport, complete Customs confirmation and any inspection.

4. **THEN DEPART**
   Hand over hold bags, pass security/immigration and follow the provider's refund instructions.

THE ORDER TO REMEMBER

Customs first. Bag drop second.
Keep all registered goods with you until confirmation and any inspection are finished.

BEFORE SHOPPING

Who can claim?

FOREIGN NON-RESIDENT VISITORS

Ordinary holiday visitors normally need **Temporary Visitor** status and less than six months since entry. Diplomat, Official and certain special landing permissions have separate qualifying routes.

Living in Japan does not become eligible simply because you take an overseas holiday. Ask the retailer to verify your own status before paying.

JAPANESE NATIONALS LIVING OVERSEAS

Generally: less than six months since temporary return, plus proof of at least **two continuous years living overseas**. Present the passport and accepted supporting evidence.

Accepted evidence includes a Residency Certificate, Koseki no Fuhyo, or an overseas-residence My Number credential showing the move abroad. Certificate freshness and content requirements apply; check the official documents list.

- [ ] Bring the **original passport**. A phone photo is not a replacement.
- [ ] At arrival, obtain the necessary landing stamp if using an automated gate; TTP has its own registered-user-card evidence.

FOR OUR FAMILY

Check each person separately. Mana joining the trip does not establish eligibility. Never register someone else's shopping under an eligible relative's passport to bypass the rules.

Sources: C D O Q | linked directory p16

CHOOSE THE RIGHT CHECKOUT

Which purchases count?

THE MINIMUM

JPY 5,000 before tax
Same eligible purchaser + same store + same day. General goods and consumables can count together.

An authorised procedure counter can combine participating stores under its rules. Different travellers cannot pool their minimum spend. Ask whether the shop participates **before** you pay.

GOODS YOU CAN TAKE OUT

Clothing, watches, hobby goods, electronics, cosmetics and packaged food may qualify when sold through a participating shop and exported. Quantity is limited to what you can personally carry out in full.

The former JPY 500,000 consumables ceiling and category split are abolished. This does not override baggage limits or destination import rules.

OUTSIDE THIS GOODS-EXPORT PROCESS

Hotel stays, restaurant meals and transport are not take-home goods. Gold/platinum bullion, gold/platinum coins and consumption-tax-exempt items are excluded.

Platinum rings: jewellery is different from bullion. Ask the jeweller whether the actual sale qualifies and whether the completed ring will be ready to carry out at departure.

Sources: B D O | linked directory p16

COMPLETE THIS BEFORE LEAVING

At the shop

1. **Ask first**
   Confirm this branch offers the November 2026 refund procedure and that your goods/status qualify.

2. **Show your passport**
   Use your original passport or the retailer's supported identification method. Carry the passport even if using a Visit Japan Web shopping code.

3. **Pay the tax-inclusive total**
   Keep enough card limit or funds for the full price. The refund comes after departure confirmation.

4. **Complete registration**
   Have the shop register the purchase to the actual eligible purchaser. If sent to a separate counter, finish its same-day procedure before it closes.

5. **Set up repayment**
   Ask who refunds you, which methods work, all fees, expected timing and whether another claim step is required.

6. **Save the evidence**
   Keep the receipt, provider instructions, registration confirmation and support contact offline.

Before you walk away: a receipt alone does not prove refund registration. Ask staff to confirm the purchase record and refund setup.

Sources: A D G O | linked directory p16

TAX IS INSIDE THE TOTAL

How much comes back?

STANDARD 10% EXAMPLE

Paid **JPY 110,000**
Tax inside that price: **JPY 10,000**
110,000 x 10 / 110 = 10,000

REDUCED 8% EXAMPLE

Paid **JPY 10,800**
Tax inside that price: **JPY 800**
10,800 x 8 / 108 = 800

The reduced rate covers qualifying food and drinks, excluding alcohol and dining out. Use each line's actual tax rate on a mixed receipt; store rounding applies.

YOUR NET REFUND

Tax amount minus disclosed fees
Example only: JPY 10,000 tax - JPY 1,000 fee = JPY 9,000 net. That fee is illustrative, not a quoted charge.

Card, bank, app and airport cash options depend on the shop/provider. Confirm currency, conversion charges and any extra registration. Do not assume airport cash is supported for every purchase.

No universal payment deadline: record the provider's promised processing period. Customs completion is not confirmation that money has already arrived.

Sources: G K P | linked directory p16

KEEP THE WHOLE PURCHASE RECORD

Can we open or use it?

CONSUMABLES: KEEP FOR EXPORT

No special sealed tax-free bag is required, but eating, drinking or using any part of registered food, medicine or cosmetics in Japan makes it ineligible.

NON-CONSUMABLES: USE CAN BE OK

A watch, clothing or another non-consumable may be used in Japan if the purchased item is still taken out of Japan. Keep it available for inspection.

One record, complete set. If even one registered item is missing or consumed, all goods in that same purchase record lose the refund. Separate, complete purchase records may still qualify.

EXAMPLE: SNACKS + WATCH

If both are in one purchase record and the snacks are eaten, the watch on that record also loses eligibility. Buy everyday food separately from export shopping.

Gifts: anything left in Japan cannot qualify through your departure claim. Do not leave a ring or another registered item with a relative while claiming to export it.

If something is missing/consumed: speak to Customs staff before using the kiosk or online confirmation. Tell them which record is affected.

Sources: B E F | linked directory p16

THE NIGHT BEFORE FLYING

Pack for inspection

- [ ] **One purchaser, their own goods.** Group each person's purchases by receipt/registration record.
- [ ] Keep the passport, receipts and refund-provider instructions within reach.
- [ ] Keep every registered item accessible until Customs confirmation and any inspection finish.
- [ ] For an **individual item at JPY 1 million or more before tax**, carry its warranty/authenticity certificate. Customs may request it with the item.
- [ ] For an expensive watch, check model/serial details against the shop documents. Keep valuables in suitable cabin baggage.
- [ ] Liquids, blades, batteries and baggage limits still follow aviation/security rules. Customs clearance does not waive them.

SUSHELLA LEAVES FIRST

Her purchases must travel with her to Narita on 16 November. Do not leave her registered goods with the group continuing to Osaka.

SHIPPING IS A DIFFERENT ROUTE

Personally posting purchases overseas is not a substitute for presenting them at departure. Shop-arranged direct export may use a separate export exemption; arrange it with the shop.

Sources: E F O | linked directory p16

BEFORE BAG DROP AND SECURITY

The airport kiosk route

1. **Use the final airport in Japan**
   Confirm export on departure within 90 days of purchase. Tokyo purchases can be confirmed at Kansai if that is your exit airport.

2. **Find the Customs procedure area**
   Use the official locator or ask airport staff. Keep all registered goods with you and scan the purchaser's passport as instructed.

Passport scanned: inspection needed?

NO	YES
GREEN / COMPLETE No inspection required. Customs confirmation is finished. Follow the provider's repayment instructions.	**RED / INSPECTION** Take passport, goods and requested documents to Customs. Finish inspection before bag drop. Red is not automatic refusal.

3. **Only then hand over hold bags**
   Proceed through security/immigration and reach the gate. A separate cash-refund machine is a payment step, not Customs export confirmation.

Allow time: queues and inspections vary. Abandoning a required inspection leaves confirmation unfinished. Checked bags cannot be retrieved for this procedure.

Official kiosk and inspection-area locator

Sources: A B F L | linked directory p16

OPTIONAL ALTERNATIVE TO THE KIOSK

Visit Japan Web route

At Narita/Kansai: qualifying **Temporary Visitor, Diplomat or Official** users only. Japanese nationals use kiosks/staff. Arrival declarations and shopping codes do not confirm export.

1. **Prepare the account**
   Register passport and landing-permission information. Check that you can log in before airport day.

> **AT THE AIRPORT: DEDICATED WI-FI**
>
> Network: **Customs_WiFi_For_TaxRefund**
> Password: **jcustoms**
> Connect in the designated public departure area. Ordinary airport Wi-Fi/mobile data does not replace it.

2. **Open Refund Procedure**
   Review the displayed purchase records. Refresh after connecting to the dedicated Wi-Fi.

3. **Check before confirming**
   Have all registered goods with you. If goods are missing/consumed, approach Customs staff instead of certifying a complete set.

4. **Read the outcome**
   Completed: Customs stage finished.
   Not Completed: go to the inspection area with goods and documents.

Fallback: use Customs kiosks/staff if online access fails. Completed records move to History; payment is separate.

MONDAY 16 NOVEMBER / JAPAN TIME

Sushella at Narita T2

KEEP THE AGREED PLAN

11:30-11:45: target arrival at T2 departures
14:45: PR433 to Cebu
Follow any earlier airline reporting instruction.

Where: T2 Main Building, **3F, before security**. The airport lists Customs Tax Refund operation at 05:30-23:00; follow current signs/staff if operation changes.

1. **Keep the suitcase with you**
   Have Sushella's passport and all her registered goods ready. Ask for the Customs tax-refund confirmation area, not just a cash-refund kiosk.

2. **Complete Customs confirmation**
   Use the kiosk, or eligible/prepared Visit Japan Web on the dedicated Wi-Fi. Finish any red-result inspection.

3. **Bag drop, security, immigration**
   Then follow the shop/provider's payment instructions. Lunch is conditional on the time left and gate location.

Cash machines are separate. Narita has different operators before/after security. After Customs clearance, use only a machine supported by your provider. Card/app/bank claims follow the shop's instructions.

Narita official instructions and map links

Arrival target is our existing planning allowance, not a guaranteed Customs processing time. The Osaka group does not accompany Sushella to Narita.

THURSDAY 19 NOVEMBER / JAPAN TIME

Family at Kansai T1

KEEP THE AGREED PLAN

07:00-07:45: breakfast
08:30: leave the Hommachi hotel
10:30-10:45: target Kansai T1 arrival

14:10 AK171: Rajeev and Mana to Kaohsiung
14:35 PR409: Mama, Papa and Tom to Cebu
Tom stays with the parents. Earlier airline/ID90 instructions take precedence.

1. **Find Customs in public departures**
   Use the official locator and signs for T1's tax-refund kiosk/inspection area. No exact counter position or opening hours are assumed here.

2. **Each eligible purchaser confirms**
   Keep all their goods accessible. Use the kiosk or eligible Visit Japan Web route; complete any requested inspection. Mana's eligibility remains separate.

3. **Then split for airline procedures**
   Bag drop and security/immigration follow clearance. Cash refunds, where supported, use separate facilities after immigration; cashless refunds follow the provider.

Japan confirmation happens here. Do not defer it until Taiwan. The airport allowance is not a queue guarantee. Shared 11:45-12:30 lunch is optional; shorten or skip it as needed.

AT THE SHOP OR BEFORE DEPARTURE

If something goes wrong

NO PURCHASE RECORD / WRONG DETAILS

Allow a short transmission delay, then contact the **shop**. Keep the receipt and provider details. A kiosk cannot be assumed to create an unregistered purchase.

VJW SHOWS NO RECORDS

Check **History** for records already submitted; refresh. If the purchase is still missing, contact the shop. Do not read an empty screen as proof of clearance.

LOGIN OR WI-FI ERROR

Log in again, reconnect to the designated network and refresh. If it still fails, use the **Customs kiosk** or ask staff.

SOMETHING WAS EATEN, LOST OR LEFT BEHIND

Go to **Customs staff before confirmation**. Identify the affected purchase record. Other complete records may still qualify.

Bags already handed over? Tell Customs immediately. Do not assume the airline can retrieve goods or that an uninspectable purchase can be refunded.

Running short of time: approach Customs/airline staff immediately. A required inspection must finish for that refund; do not assume it can be completed from the gate or after leaving Japan.

Sources: F I K | linked directory p16

AFTER CUSTOMS CONFIRMATION

Track the money

1. **Keep the result**
   Retain the confirmation/history and shop/provider instructions. A completed Customs result is separate from the refund's payment status.

2. **Finish provider steps**
   Use the instructed card, bank, app or supported airport cash route. Some providers require an additional claim or account step.

3. **Check the amount**
   Match the refund to the purchase, disclosed fees and currency. Keep receipts until every claim is settled.

4. **Follow up at the right place**
   Once the stated processing period has passed, contact the shop or its named refund provider. Customs does not operate the retailer's payment helpdesk.

KEEP A SIMPLE FOLLOW-UP RECORD

Store / date / purchaser / claim reference
Expected net refund / Customs completion date
Promised timing / support contact (use p15)

Use only the retailer/provider's official contact channel. Share claim documents privately; keep passport and card details out of public messages.

Separate issue: a Japan refund does not remove Taiwan or Philippine import declarations, allowances or duties. Check the destination rules for what you carry.

SHOPPING AND AIRPORT QUESTIONS

Show this to staff

1. **Before paying**
   Does this branch offer the November 2026 refund system? Am I eligible, and does this purchase meet the minimum?

2. **Check the registration**
   Is this purchase record registered to my passport? Do I need to visit another counter today?

3. **Check the money**
   Who refunds me? What is the net amount, currency and timing? Is my refund method fully registered?

4. **For a watch or ring**
   Will I have the item in time to export it? Which warranty, authenticity or serial-number documents should I keep?

5. **At the airport**
   Where is Customs tax-refund export confirmation, before I check in my luggage?

6. **If an item is missing**
   An item is missing or consumed. Please help me declare it and check my other complete purchase records.

These are practical English prompts, not official forms. Ask the shop to write the provider name and support contact on the receipt.

KEEP THIS PAGE HANDY

Final check + claim log

- [ ] Original passport and any eligibility evidence.
- [ ] Every registered item, grouped by purchaser/record.
- [ ] Receipts, provider instructions and expensive-item documents.
- [ ] Customs confirmation and any inspection finished **before bag drop/security**.
- [ ] Remaining refund steps understood; boarding deadline protected.

Purchaser: _____
